Item	Description

3.0 – QUESTIONS AND ANSWERS

The following questions and answers are provided as a matter of information to clarify issues raised about the Bid Documents.

Item	Questions and Answers
1	Q: To assist with our pricing and supply planning, could you please provide the estimated annual quantity anticipated for each material/item listed in the solicitation? We understand that any quantities provided would be estimates for planning purposes only and would not represent a guaranteed purchase volume. However, having an approximate annual requirement by item would help us develop the most accurate and competitive pricing possible. If historical annual usage is available instead of projected quantities, that information would also be helpful. Below were our figures that we used to form our budget number last year. We didn't put this into the bid because actual tonnage could be more/less depending on Department needs and projects for the fiscal year: • 540 tons #57 • 840 tons CR6 • 110 tons Gabion

END OF ADDENDUM
